Who we are

We work with Governments and Charities to source and deliver their critical projects owning the end-to-end supply chain of hard to source procurements for items such as food, medical equipment, industrial equipment, winterization products and other NFI's

MediWear is also specialist sourcing and supply company, headquartered in Seinäjoki and Helsinki. Positioned as a strategic partner and solution, we're working across five key sectors: Food, Medical, Defense, Industrial & Aid- eliminating risk, guaranteeing quality and ensuring supply. Operating across multiple countries globally give us unrivalled logistical strength, speed and ability to guarantee the supply of essential product anywhere, anytime. MediWear. MediWear also manufactures self-developed and patented products for various defense industries, such as the world's lightest and smallest evacuation platform and various ballistic protection equipment.

Guided by our five core values: fresh, energetic, courageous, humble & loyal, we're placing trust and the very apex of who and what we are.

Here at MediWear our client's vision is our ultimate goal. We move with lightning speed, superior energy & creativity, with hyperfocus on resolving source and supply challenges quickly and effectively. With our clients spanning continents, industries & expectations we have a proven track record of delivering results at the highest level. We co-creating and co-innovating solutions, helping to mitigate risk, improve resilience and drive sustainable growth.
